Consolidated Financial Statements and Independent Auditors' Report

2023 and 2022

Company address: 6F, No. 202, Xingfu Road, Taoyuan District, Taoyuan City, Taiwan
Telephone: (03)364-2777

The independent auditors' report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China.
If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and consolidated financial statements, the Chinese version shall prevail.

Table of Contents

Declaration Statement

The entities that are required to be included in the 2023 consolidated financial statements of the Company (from January 1 2023, to December 31, 2023), under the Criteria Governing the Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises are the same as those included in the consolidated financial statements prepared in conformity with the International Financial Reporting Standard 10. In addition, the information required to be disclosed in the consolidated financial statements is included in the consolidated financial statements. Consequently, a separate set of combined financial statements will not be prepared.

We hereby declare

Company name: NAN JUEN INTERNATIONAL CO., LTD.

Chairperson: Chin-Lan Lee

Date: March 15, 2024

Independent Auditors' Report

To: The Board of Directors of NAN JUEN INTERNATIONAL CO., LTD.

Audit Opinions

We have reviewed the accompanying consolidated balance sheet of NAN JUEN INTERNATIONAL CO., LTD. and subsidiaries as of December 31, 2023 and 2022, and the consolidated, Statements of Comprehensive Income, Statements of Changes in Equity and Statements of Cash Flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of NAN JUEN INTERNATIONAL CO., LTD. and its subsidiaries (hereinafter referred to as the "consolidated company") as of December 31, 2023 and 2022, and the results of the consolidated operations and the consolidated cash flows for the years then ended in conformity with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations, and SIC Interpretations endorsed by the Financial Supervisory Commission (FSC).

Basis for the audit opinion

We conducted the audit in accordance with the Regulations Governing the Audit of Financial Statements and Auditing Standards. Our responsibilities under these standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We comply with the Norm of Professional Ethics for Certified Public Accountants of the Republic of China and are independent of NAN JUEN INTERNATIONAL CO., LTD. and Subsidiaries. We have also fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the 2023 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matters determined by us to be communicated on the audit report are as follows:

I. Revenue recognition

Regarding the accounting policy for the revenue recognition, please refer to Note 4(13) of the consolidated financial statements. For the description of revenue recognition, please refer to the revenue from contracts with customers in Note 6(15) of the consolidated financial statements.

Description of Key Audit Matters:

The main business of NAN JUEN INTERNATIONAL CO., LTD. and subsidiaries is the research and development, manufacturing, and trading of steel ball bearing slides. Since operating revenue is one of the important items in the financial statements, and it is expected to be one of the concerns of financial statement users, therefore, the testing of revenue recognition is one of the important evaluation matters in our audit of the consolidated financial statements.

The corresponding audit procedures:

Our audit procedures for the key audit matters above include:

- Evaluate whether the accounting policy for revenue recognition conforms to the specifications of the relevant bulletins.
- Test the design and implementation of the internal control system related to revenue recognition.
- Analyze the changes in the top ten customers and compare them with the same period last year to determine whether there are any significant changes or abnormalities.
- A sample of sales transactions within a certain period before and after the financial reporting date are selected to verify that the revenue, transaction records and various certificates cover the appropriate period.
- Assess whether there are significant sales returns and discounts after the assessment period.

Other matters

NAN JUEN INTERNATIONAL CO., LTD. has additionally prepared its parent company only financial statements for the years ended December 31, 2023 and 2022, on which we have issued an unqualified audit opinion.

Responsibilities of the management level and the governing body for the consolidated financial statements

The responsibilities of the management are to prepare the consolidated financial statements with fair presentation in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRS and IAS, as well as IFRIC and SIC interpretations endorsed and entered into effect by the FSC, and to maintain necessary internal control associated with the preparation in order to ensure that the financial statements are free from material misstatement arising from fraud or error.

In preparing the consolidated financial statements, the management is responsible for assessing the ability of the consolidated company in continuing as a going concern, disclosing relevant matters, and adopting the going concern basis of accounting unless the management intends to liquidate the consolidated company or cease the operations without other viable alternatives.

The governing body of the consolidated company (including the Audit Committee) is responsible for supervising the financial reporting process.

Responsibilities of the Auditors for auditing the consolidated financial statements

Our objectives are to obtain reasonable assurance on whether the consolidated financial statements as a whole are free from material misstatement arising from fraud or error, and to issue an independent auditors' report. Reasonable assurance is a high-level assurance but is not a guarantee that an audit conducted in accordance with the auditing standards in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error. If the amounts of misstatements, either separately or in aggregate, could reasonably be expected to influence the economic decisions of the users of the consolidated financial statements, they are considered material.

We exercise professional judgment and skepticism in conducting audits in accordance with the auditing standards generally accepted in the Republic of China. We also perform the following tasks:

1. Identify and assess the risks of material misstatement arising from fraud or error within the consolidated financial statements; design and execute countermeasures in response to said risks, and obtain sufficient and appropriate audit evidence to provide a basis of our opinion. Fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Therefore, the risk of not detecting a material misstatement resulting from fraud is higher than the one resulting from error.
2. Understand the internal control related to the audit in order to design appropriate audit procedures under the circumstances, while not for the purpose of expressing an opinion on the effectiveness of the consolidated company's internal control.
3. Evaluate the appropriateness of accounting policies adopted and the reasonableness of accounting estimates and relevant disclosures made by the management.
4. Conclude on the appropriateness of the management's adoption of the going concern basis of accounting based on the audit evidence obtained and whether a material uncertainty exists for events or conditions that may cast significant doubt on the consolidated company's ability to continue as a going concern. If we are of the opinion that a material uncertainty exists, we shall remind users of the consolidated financial statements to pay attention to relevant disclosures in said statements within our audit report. If such disclosures are inadequate, we need to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the consolidated company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure, and content of the consolidated financial statements (including relevant notes), and whether the consolidated financial statements adequately present the relevant transactions and events.
6. Obtain sufficient and appropriate audit evidence concerning the financial information of entities

within the consolidated company, to express an opinion on the consolidated financial statements. We are responsible for guiding, supervising, and performing the audit and forming an audit opinion on the consolidated company.

The matters communicated between us and the governing body include the planned scope and times of the audit and significant audit findings (including any significant deficiencies in internal control identified during the audit).

We also provided the governing body with a declaration that we have complied with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China regarding independence, and communicated with them all relationships and other matters that may possibly be regarded as detrimental to our independence (including relevant protective measures).

From the matters communicated with the governing body, we determined the key audit matters for the audit of the consolidated company's consolidated financial statements for the year ended December 31, 2023. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Heng-Shen Lin and Ming-Fang Hsu.

NAN JUEN INTERNATIONAL CO., LTD. and Subsidiaries
Notes to the consolidated financial statements
2023 and 2022
(Unless otherwise stated, all amounts are in NTD thousand)

I. Company history

NAN JUEN INTERNATIONAL CO., LTD. (hereinafter referred to as the "Company"), formerly known as NAN JUEN INDUSTRIAL CO., LTD., was established by approval of the Ministry of Economic Affairs on June 19, 1984. The Company changed its name to NAN JUEN INTERNATIONAL CO., LTD. in September 1996 and its registered address is 6F, No. 202, Xingfu Rd., Taoyuan Dist., Taoyuan City, Taiwan. The main business of the Company and its subsidiaries (hereinafter referred to as the "consolidated company") is the research and development, manufacturing and trading of steel ball bearing slides.

II. Date and procedure for adopting financial statements

The consolidated financial statements were approved by the Board of Directors for release on March 15, 2024.

III. Application of new and amended standards and interpretations

(I) The impact of the new and revised standards and interpretations approved by the Financial Supervisory Commission has been adopted.

The consolidated company began to apply the following newly amended IFRSs on January 1, 2023, and there was no significant impact on the consolidated financial statements.

- Amendments to IAS 1 "Disclosure of Accounting Policies".
- Amendments to IAS 8 “Definition of Accounting Estimates”.
- Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"

The consolidated company began to apply the following newly amended IFRSs on May 23, 2023, and there was no significant impact on the consolidated financial statements.

- Amendments to IAS 12, “International Tax Reform -— Pillar Two Model Rules”.

(II) The impact of not yet adopting the IFRS recognized by the FSC.

The consolidated company evaluates the application of the following newly amended IFRSs effective from January 1, 2024, and there was no significant impact on the consolidated financial statements.

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current".

- Amendments to IAS 1 “Non-Current Liabilities with Covenants”.
- Amendments to IAS 7 and IFRS 7 "Supplier Financing Arrangements".
- Amendments to IFRS 16 “Lease Liability in a Sale and Leaseback”.

(III) Newly issued and amended standards and interpretations not yet approved by the FSC

The consolidated company expects the following other new amendments to standards that have not yet been approved to have no significant impact on the consolidated financial statements.

- Amendments to IFRS No. 10 and IAS No. 28 regarding "Sale or contribution of assets between an investor and its affiliate or joint venture".
- Amendments to IFRS 17 "Insurance Contracts" and IFRS 17.
- Amendments to IAS 21 "Lack of Exchangeability".

IV. Summary of significant accounting policies

The significant accounting policies adopted in the consolidated financial statements are summarized as follows. Unless otherwise specified, the following accounting policies have been consistently applied throughout the presentation period of the consolidated financial statements.

(I) Compliance Statement

The consolidated financial statements are prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRS, IAS, and interpretations (collectively referred to as IFRSs) that have been issued, entered into effect and endorsed by the FSC.

(II) Basis of preparation

1. Basis of measurement

Except for the following important items on the balance sheet, the consolidated financial statements have been prepared on the basis of historical cost:

(1) Financial assets (liabilities) measured at fair value through gain or loss; and

(2) The net defined benefit liability (or asset) is measured by the fair value of the pension fund assets less the present value of the defined benefit obligation.

2. Functional currency and presentation currency

Each entity of the consolidated company uses the currency of the primary economic environment as its functional currency. The consolidated financial statements are presented in the Company's functional currency, NTD. All financial information expressed in NTD is with the unit of NTD thousand.

(III) Basis of consolidation

1. Principles for the preparation of consolidated financial statements

The main body of the consolidated financial statements includes the Company and the entities controlled by the Company (i.e. subsidiaries). When the Company is exposed to the variable remuneration from participating in an invested entity or is entitled to such variable remuneration, and has the ability to affect the returns through its power over the invested entity, the Company controls the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date of acquisition of control over the subsidiaries until the date of loss of control. Consolidated company transactions, balances and any unrealized gains or losses on transactions have been eliminated when preparing the consolidated financial statements. The total comprehensive income of the subsidiaries is attributed to the owners of the Company and the non-controlling interests, even if the non-controlling interests become a deficit balance.

The financial statements of the subsidiaries have been appropriately adjusted to make their accounting policies consistent with the accounting policies used by the consolidated company.

Changes in the consolidated company's equity interests in subsidiaries that do not result in a loss of control over the subsidiaries are treated as equity transactions with owners. The difference between the adjustment to the non-controlling interests and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Company.

2. Subsidiaries included in the consolidated financial statements

Name of Investment Company	**Name of subsidiary**	**Nature of business**	**Percentage of equity held**	
			2023.12.31	**2022.12.31**
The Company	SUZHOU NAN JUEN TRADE CO., LTD	Ball bearing slide sales business	100%	100%
The Company	REPON (USA), INC.	Ball bearing slide sales business	100%	100%

3. Subsidiaries not included in the consolidated financial statements: None.

(IV) Foreign currency

1. Foreign currency transactions

Transactions denominated in foreign currencies are translated into the functional currency in accordance with the exchange rates prevailing on the transaction date. At the end of each subsequent reporting period (hereinafter referred to as the reporting date), monetary items denominated in foreign currencies are translated into the functional currency in accordance with the exchange rate of the day.

The non-monetary item denominated in foreign currency measured at fair value is translated into the functional currency in accordance with the exchange rate on the date the fair value is measured. The non-monetary item denominated in foreign currency measured at historical cost is translated in accordance with the exchange rate on the transaction date.

The foreign currency exchange difference arising from translation is generally recognized in profit or loss.

2. Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are converted into NTD in accordance with the exchange rate on the reporting date; the income and expense items are converted into NTD in accordance with the current average exchange rate. The exchange differences are recognized in other comprehensive income.

When the disposal of a foreign operation results in a loss of control, loss of joint control, or significant influence, the accumulated exchange difference related to the foreign operation is entirely reclassified as profit or loss. When the partial disposal includes subsidiaries of foreign operations, the relevant accumulated exchange differences are re-attributable to non-controlling interests on a pro rata basis. When the partial disposal includes investments in affiliates or joint ventures of foreign operations, the relevant accumulated exchange differences are reclassified to profit or loss on a pro rata basis.

If there is no settlement plan for the monetary receivables or payables of foreign operating institutions and it is impossible for them to be settled in the foreseeable future, the profit or loss from foreign currency exchange is considered as part of the net investments in foreign operations and is recognized in other comprehensive income.

(V) Classification criteria for current and non-current assets and liabilities

Assets that meet one of the following conditions are classified as current assets; assets other than current assets are classified as non-current assets:

1. The asset is expected to be realized, or intended to be sold or consumed in the normal

business cycle;

2. The asset is held primarily for the purpose of trading;
3. The asset is expected to be realized within 12 months after the reporting period; or
4. The assets are cash or cash equivalents, except for those that are subject to other restrictions on exchange or to be uses to settle a liability at least 12 months after the reporting period.

Liabilities that meet one of the following conditions are classified as current liabilities, and all liabilities other than current liabilities are classified as non-current liabilities:

1. The liability is expected to be settled in the normal business cycle;
2. The liability is held primarily for the purpose of trading;
3. Liabilities expected to be settled within 12 months after the reporting period; or
4. Liabilities that do not have the right to unconditionally defer the settlement period for at least 12 months after the reporting period. The terms of a liability that may, at the option of the counterparty, result in its settlement by issue of equity instruments does not affect its classification.

(VI) Cash and cash equivalents

Cash includes cash on hand and demand deposits. Cash equivalent is short-term investment with high liquidity that is readily convertible to known amounts of cash with insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of fulfilling short-term cash commitments rather than investment or other purposes are reported as cash equivalents.

(VII) Financial instruments

Accounts receivable and debt securities issued are recognized at time of generation. All other financial assets and financial liabilities are recognized when the consolidated company becomes a party to the terms of a financial instrument contract. Financial assets that are not measured at fair value through profit or loss (except accounts receivable that do not contain significant financial components) or financial liabilities are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issuance. Accounts receivable that do not contain significant financial components are initially measured at transaction prices.

1. Financial assets

If the purchase or sale of financial assets is in line with customary transactions, the consolidated company's accounting treatment of all financial assets classified in the same way adopts the trade date for all purchases and sales.

At the time of initial recognition, financial assets are classified as: financial assets measured at amortized cost, debt instrument investment measured at fair value through other comprehensive income, equity instrument investment measured at fair value or financial assets measured at fair value through profit or loss. The consolidated company only reclassifies all affected financial assets from the first day of the next reporting period when the business model for managing financial assets is changed.

(1) Financial assets measured at amortized cost

Financial assets that meet the following conditions and are not designated to be measured at fair value through profit or loss are measured at amortized cost:

- The financial asset is held under the business model for the purpose of collecting contractual cash flow.
- The cash flow on a specific date in accordance with the contractual terms of the financial asset is solely the interest paid on the principal and the outstanding principal amount.

Such assets are subsequently measured at the initial recognized amount plus or minus the accumulated amortization calculated by the effective interest method, and any amortized cost of the allowance loss is adjusted. Interest revenue, foreign currency exchange gains and losses, and impairment losses are recognized in profit or loss. Upon derecognition, the profit or loss is recognized in profit or loss.

(2) Financial assets at fair value through profit or loss

Financial assets that are not measured at amortized cost or financial assets at fair value through other comprehensive income (e.g.: financial assets held for trading or financial assets with performance assessed at fair value) are measured at fair value through profit and loss. Accounts receivable that the consolidated company intends to sell immediately or in the near future are measured at fair value through profit or loss, but are included in accounts receivable.

Such assets are subsequently measured at fair value, and the net profit or loss (including any dividend and interest income) is recognized as profit and loss.

(3) Financial assets impairment

For the consolidated company's financial assets measured at amortized cost (including cash and cash equivalents, financial assets measured at amortized cost, notes and accounts receivable, other receivables, refundable deposits, and other financial assets), the expected credit losses of debt instrument investments measured at fair value through other comprehensive income and contract assets are recognized in the allowance loss.

The following financial assets have allowance losses measured at the 12-month expected credit losses, and the rest are measured at the lifetime expected credit losses:

- Debt securities determined to have a low credit risk on the reporting date; and
- The credit risk of other debt securities and bank deposits (i.e. the risk of default during the expected duration of the financial instrument) has not increased significantly since the initial recognition.

The loss allowance for accounts receivable is measured based on the expected credit loss throughout the duration.

In determining whether the credit risk has increased significantly since the initial recognition, the consolidated company considers reasonable and provable information (which can be obtained without excessive cost or investment), including qualitative and quantitative information, and based on the consolidated company's historical experience, credit assessment and analysis of forward-looking information.

If the credit risk rating of a financial instrument is equivalent to the "investment grade" defined by the world (S&P's investment grade BBB- , and Baa3 ratings by Moody's or rated at twA by Taiwan Ratings, or higher than such ratings), and the consolidated company considers the debt securities to have a low credit risk.

If the contract amount is overdue for more than 30 days, the consolidated company assumes that the credit risk of the financial assets has increased significantly.

If the contract amount is overdue for more than 180 days, or the borrower is unlikely to perform its credit obligations and pay the full amount to the consolidated company, the consolidated company considers the financial asset to be in default.

The expected credit loss is the probability-weighted estimate of the credit loss during the expected duration of a financial instrument. Credit loss is measured at the present value of all cash shortfalls, which is the difference between the cash flow that the consolidated company can collect in accordance with the contract and the cash flow that the consolidated company expects to collect. Expected credit losses are discounted at the effective interest rate of financial assets.

The consolidated company assesses whether credit impairment has occurred on each reporting date based on financial assets measured at amortized cost and debt securities measured at fair value through other comprehensive income. When one or more events that adversely affect the estimated future cash flow of a financial asset have occurred, the financial asset has credit impairment. Evidence of credit impairment of financial assets includes the observable data of the following matters:

- Major financial difficulties of the borrower or issuer;
- Default, such as delay or overdue for more than 180 days;
- Due to economic or contractual reasons related to the borrower's financial difficulty, the consolidated company gives the borrower a concession it would not have otherwise considered;
- The borrower is likely to file for bankruptcy or undergo other financial restructuring; or
- The active market for the financial asset disappears due to financial difficulties.

The loss allowance of financial assets measured at amortized cost is deducted from the book value of the assets. The loss allowance of investments in debt instruments at fair value through other comprehensive income is recognized in other comprehensive income (without reducing the book value of the asset). The amount of the provision or reversal of the loss allowance is recognized in profit or loss.

When the consolidated company cannot reasonably expect all or part of the recovered financial assets, it will directly reduce the total book value of its financial assets. Usually, the consolidated company determines that the debtor's assets or sources of revenue cannot generate sufficient cash flow to repay the amount of the write-off. However, the written-off financial assets can still be enforced to meet the procedures for the consolidated company to recover the overdue amount.

(4) Derecognition of financial assets

The consolidated company will derecognize financial assets when its contractual rights to the cash flows from the assets are terminated, or it has transferred the financial assets and almost all the risks and rewards of the ownership of the assets to other enterprises, or that it has neither transferred nor retained all the risks and rewards of the ownership of the assets and has not retained the control over these financial assets.

When the consolidated company enters into a transaction to transfer a financial asset, if all or almost all of the risks and rewards of the transferred asset ownership are retained, it will continue to be recognized in the balance sheet.

2. Financial liabilities and equity instruments

(1) Classification of liabilities or equity

The consolidated company's debt and equity instruments are classified as financial liabilities or equity based on the substance of the contractual agreements and the definitions of financial liabilities and equity instruments.

(2) Equity transactions

Equity instrument refers to any contract in which the consolidated company has residual equity after deducting all liabilities from assets. The equity instruments issued by the consolidated company are recognized at the amount taking the acquisition price less the direct issuance cost.

(3) Financial liabilities

Financial liabilities are classified as amortized cost or measured at fair value through profit or loss. If a financial liability is held for trading, derivative or designated at the time of initial recognition, it is classified as measured at fair value through profit or loss. Financial liabilities at fair value through profit or loss are measured at fair value, and related net profits and losses, including any interest expenses, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and exchange gains and losses are recognized in profit or loss. Any profit or loss is recognized in profit or loss at the time of derecognition.

(4) Removal of financial liabilities

The consolidated company derecognizes financial liabilities when contractual obligations are fulfilled, canceled, or expired. When the terms of a financial liability are amended and there is a significant difference in the cash flow of the liability after the amendment, the original financial liability is derecognized, and a new financial liability at the fair value based on the amended terms is recognized.

When derecognizing financial liabilities, the difference between the book value and the total consideration paid or payable (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

(5) Offsetting of financial assets and liabilities

Financial assets and financial liabilities can be offset against each other and reported in the balance sheet in net amount only when the consolidated company has a legally enforceable right to offset them against each other and there is an intention to settle in net amount, or the assets are realized and the liabilities are repaid at the same time.

(VIII) Inventory

Inventories are measured at the lower of cost or net realizable value. Costs include the acquisition, production or processing costs and other costs incurred to make them available for use, and are calculated in accordance with the weighted average method. The cost of inventories of finished goods and work-in-progress includes the manufacturing expenses amortized based on the normal production capacity in an appropriate proportion.

The net realizable value refers to the balance of the estimated selling price under normal operations less the estimated cost of completion and the estimated cost of sales.

(IX) Property, plant and equipment

1. Recognition and measurement

Property, plant and equipment are measured at cost (including capitalized borrowing costs) less accumulated depreciation and any accumulated impairment.

When significant components of property, plant and equipment have different useful lives, they are treated as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of property, plant and equipment is recognized in profit or loss.

2. Subsequent costs

Subsequent expenses may be capitalized only when their future economic benefits are likely to flow into the consolidated company.

3. Depreciation

Depreciation is calculated at the cost of the asset less residual value and recognized in profit or loss using the straight-line method over the estimated useful life of each component.

Land is not depreciated.

The estimated useful lives for the current period and the comparative period are as follows:

(1) Buildings	3 - 50 years
(2) Machinery and equipment	2 to 20 years
(3) Other equipment	1 to 10 years

The consolidated company reviews the depreciation method, useful years, and residual value on each reporting date, and makes appropriate adjustments if necessary.

(X) Leases

The consolidated company assesses whether the contract is or contains a lease on the date of establishment of the contract. If the contract transfers control over the use of identified assets for a period of time in exchange for consideration, the contract is or contains a lease.

1. Lessee

The consolidated company recognizes right-of-use assets and lease liabilities on the lease commencement date. Right-of-use assets are initially measured at cost, which includes the initial measurement of lease liabilities, adjusted for any lease payments paid on or before the lease commencement date, and added incurred initial direct cost and the estimated cost of dismantling, removing the underlying asset and restoring the location or underlying asset, while deducting any lease incentives received.

The subsequent right-of-use assets are depreciated using the straight-line method from the lease start date to the end of their useful lives or the expiration of the lease term, whichever is earlier. In addition, the consolidated company regularly assesses whether the right-of-use assets are impaired and handles any impairment losses that have occurred. The right-of-use assets are adjusted if the lease liabilities are remeasured.

Lease liabilities are initially measured at the present value of the unpaid lease payments on the lease starting date. If the interest rate implicit in the lease is easy to determine, the discount rate is the interest rate. If it is not easy to determine, the consolidated company's incremental borrowing rate is used. Generally, the consolidated company adopts its incremental borrowing interest rate as the discount rate.

Lease payments included in the measurement of lease liabilities include:

(1) Fixed payments, including substantive fixed payments;
(2) For the variable lease payment that depends on a certain index or rate, the index or the rate on the lease commencement date is used as the initial measurement;
(3) The residual guarantee amount expected to be paid; and
(4) The exercise price or penalty fee when the purchase option or lease termination option is reasonably determined to be exercised.

Subsequent interest on lease liabilities is accrued using the effective interest method, and the amount is re-measured when:

(1) Changes in the index or rate used to determine lease payments result in changes in future lease payments;
(2) There is a change in the residual guarantee amount expected to be paid;

(3) There is a change in the evaluation of the underlying asset purchase option;

(4) There is a change in the estimate of whether to extend or terminate the option, and the evaluation on the lease period is changed;

(5) Amendment to the subject, scope, or other terms and conditions of the lease.

When a lease liability is remeasured due to a change in the index or rate used to determine lease payments, changes in the residual guarantee amount, or an evaluation change in the purchase, extension, or termination of an option, the book value of the right-of-use asset shall be adjusted accordingly. When the book value of the right-of-use assets is reduced to zero, the remaining remeasured amount is recognized in profit or loss.

For a lease modification that reduces the scope of the lease, the book value of the right-of-use asset is reduced to reflect the partial or full termination of the lease, and the difference between the remeasured amount of the lease liability and the difference is recognized in profit or loss.

The consolidated company presents the right-of-use assets and lease liabilities that do not meet the definition of investment property as separate line items in the balance sheet.

For other equipment and transportation equipment short-term lease and low-value underlying asset lease, the consolidated company chooses not to recognize the right-of-use assets and lease liabilities, but to recognize the relevant lease payments as expenses on the straight-line basis over the lease term.

Sale and leaseback transactions are based on the assessment of whether the transfer of assets to a buyer and lessor satisfies the requirements of a sale in accordance with IFRS 15. If it is determined to be a sale, the asset is derecognized and the right transferred to the buyer and lessor is recognized in the relevant profit and loss. The leaseback transaction shall be subject to the lessee accounting model. The right-of-use asset is measured using the originally recognized amount of the leaseback. If it is judged that the requirements for treating as sales are not met, the transferred assets will continue to be recognized and the consideration received will be recognized as financial liabilities.

2. Lessor

For transactions in which the consolidated company is a lessor, the lease contract is classified based on whether it transfers almost all the risks and returns attached to the ownership of the underlying asset on the date of establishment of the lease. If so, it is classified as a financing lease; otherwise, it is classified as an operating lease. During the evaluation, the consolidated company considers relevant specific indicators, including whether the lease period covers the main part of the economic life of the underlying assets.

If the consolidated company is the sublessor, it shall manage the main lease and sublease transactions separately, and use the right-of-use assets generated from the main lease to assess the classification of the sublease transactions. If the main lease is a short-term lease and the recognition exemption is applicable, the sublease transaction of the main lease should be classified as an operating lease.

If the agreement includes lease and non-lease components, the consolidated company uses IFRS 15 to allocate the consideration in the contract.

(XI) Intangible assets

1. Recognition and measurement

Expenditures related to research activities are recognized in profit or loss when incurred.

Development expenditure shall be used only when the cost can be reliably measured, the technical or commercial feasibility of the product or process has been achieved, it is probable that future economic benefits will flow to the consolidated company, and the consolidated company has the intention and sufficient resources to complete the development and use or sell the asset is capitalized. Other development expenditures are recognized in profit or loss when incurred. After initial recognition, the capitalized development expenditure is measured at its cost less accumulated amortization and accumulated impairment.

The consolidated company's acquisition of other finite intangible assets with useful years is measured at cost less accumulated amortization and accumulated impairment.

2. Subsequent expenses

Subsequent expenses are capitalized only when they increase the future economic benefits of the relevant specific assets. All other expenses are recognized as income upon occurrence, including the goodwill and brand developed internally.

3. Amortization

The amortization is calculated in accordance with the asset cost less the estimated residual value, and is recognized in profit or loss using the straight-line method over the estimated useful years from the intangible asset becoming available for use.

The consolidated company reviews the amortization method, useful years and residual value of intangible assets on each reporting date, and makes appropriate adjustments if necessary.

(XII) Non-financial assets impairment

The consolidated company assesses whether there is any indication that the book value of non-financial assets (except inventories and deferred income tax assets) may be impaired at each reporting date. If any sign exists, the recoverable amount of the asset shall be estimated. Goodwill is tested for impairment annually.

For the purpose of impairment testing, the group of assets whose cash inflow is mostly independent of other individual assets or asset group is recognized as the smallest identifiable asset group. The goodwill acquired in a business merger is amortized to each cash-generating unit or cash-generating unit group that is expected to benefit from the synergy of the merger.

The recoverable amount is the fair value of an individual asset or cash-generating unit less the cost of disposal and its value in use, whichever is higher. In assessing value in use, the estimated future cash flows are converted to the present value using a pre-tax discount rate that reflects the current market's assessment of the time value of money and the specific risks of the asset or cash-generating unit.

If the recoverable amount of an individual asset or cash-generating unit is lower than the book value, it is recognized as impairment loss. The impairment loss is immediately recognized in profit or loss, and the book value of the amortized goodwill of the cash-generating unit is reduced first, and then the book value of each asset is reduced in proportion to the book value of other assets in the unit.

The impairment loss of goodwill shall not be reversed. The non-financial assets other than goodwill are only reversed within the book value (less depreciation or amortization) of the asset if no impairment loss was recognized in previous years.

(XIII) Revenue recognition

Revenue is measured based on the expected consideration for the right to be obtained from the transfer of goods or services. The consolidated company recognizes revenue when the control of the product or labor service is transferred to the customer and the performance obligation is met. The main revenue items of the consolidated company are described as follows:

1. Sale of goods

The consolidated company recognizes the revenue as income when the control of the product is transferred. The transfer of control of the product means that the product has been delivered to the customer, and the customer can fully determine the sales channel and price of the product, and there are no outstanding obligations that would affect the customer's acceptance of the product. Delivery occurs when the product is transported to a specific location, and its obsolescence and risk of loss have been transferred to the customer, and the customer has accepted the product in accordance with the sales contract, and the acceptance terms and conditions have become invalid, or the consolidated company has objective evidence that all acceptance conditions have been met.

The consolidated company recognizes accounts receivable when the goods are delivered, as the consolidated company has the right to unconditionally collect the consideration at that time.

2. Financial components

The consolidated company expects that the interval between the time when all customers contract to transfer goods or services to the customer and the time when the customer pays for the goods or services will be less than one year. Therefore, the consolidated company does not adjust the time value of money of the transaction price.

(XIV) Employee benefits

1. Defined contribution plan

The obligation of the defined contribution plan is recognized as an expense within the service period provided by the employee.

2. Defined benefit plan

The consolidated company's net obligation to the defined benefit plan is converted to the present value of the future benefit amount earned by employees from the services in the current period or in the past for each benefit plan, and less the fair value of any planned assets.

Defined benefit obligations are calculated annually by a qualified actuary using the projected unit benefit method. When the calculation result may be favorable to the consolidated company, the assets recognized shall be up to the present value of any economic benefit that can be derived from the refund of the contribution from the plan or the reduction of the contribution from the plan in the future. The calculation of the present value of the economic benefits takes into account the minimum capital contribution required.

The remeasurement of the net defined benefit liability, including actuarial gains and losses, plan asset returns (excluding interest), and any change in the impact of asset ceilings (excluding interest) is immediately recognized in other comprehensive income and accumulated in retained earnings. The consolidated company determines the net interest expense (revenue) of the net defined benefit liabilities (assets) using the net defined benefit liabilities (assets) and the discount rate at the beginning of the reporting period. The net interest expense and other expenses of the defined benefit plan are recognized in profit or loss.

When the plan is revised or curtailed, the changes in welfare related to the prior service cost or curtailment benefit or loss is recognized immediately in profit or loss. When the settlement occurs, the consolidated company recognizes the settlement gain or loss of the defined benefit plan.

3. Short-term employee benefits

Short-term employee benefit obligations are recognized as expenses when the services are provided. If the consolidated company has a current legal or presumed payment obligation due to the past services provided by employees, and the obligation can be estimated reliably, the amount is recognized as liabilities.

(XV) Share-based payment transactions

For the equity-settled share-based payment agreement, the fair value on the grant date is recognized as an expense and increased in relative equity during the vested period. The recognized expenses are adjusted according to the quantity of remuneration expected to meet the service conditions and non-market value vested conditions; and the ultimately recognized amount is measured based on the quantity of remuneration meeting service conditions and non-market value vested conditions on the vesting day.

The non-vested conditions regarding the share-based payment incentives are reflected in the measurement of the fair value of the share-based payment and the difference between the expected and actual results is not subject to verification adjustment.

The fair value of the cash share appreciation rights payable to the employees is recognized as an expense and increased in liabilities within the period when the employees are entitled to the remuneration unconditionally. The liability is re-measured at the fair value of the share appreciation rights on each reporting date and delivery date, with any changes recognized in profit or loss.

The payment date of the consolidated company's share-based payment is the record date of the capital increase approved by the board of directors.

(XVI) Income tax

Income tax includes current income tax and deferred income tax. Except for those related to business combination and recognized directly in equity or other comprehensive income, current income tax and deferred income tax shall be recognized in profit or loss.

The current income tax includes the expected income tax payable or tax refund receivable calculated based on the taxable income (loss) of the current year, and any adjustment to the income tax payable in previous years. The amount is the best estimate of the expected payment or receipt based on the statutory tax rate or tax rate substantially enacted on the reporting date.

Deferred income tax is measured and recognized on temporary differences between the book value of assets and liabilities and their tax bases at the reporting date. Temporary differences arising from the following circumstances shall not be recognized as deferred income tax:

1. Assets or liabilities initially recognized in a transaction that is not a business merger, and at the time of the transaction (i) does not affect accounting profits and taxable income (loss); and (ii) does not give rise to equivalent taxable discrepancy;
2. The temporary difference arising from investment in subsidiaries and joint ventures, for which the consolidated company controls the time of reversal of the temporary difference and is very likely not to be reversed in the foreseeable future.

Unused tax losses and unused income tax credits carried forward and deductible temporary differences are recognized as deferred income tax assets within the range of future taxable income that is likely to be available for use. The Company shall reevaluate it at each reporting date, and adjust the relevant income tax benefits to the extent that it is not very likely to be realized; or to reverse the amount of reduction in the range where it is very likely that there will be sufficient taxable income.

Deferred income tax is measured at the tax rate expected to be enacted in the period when assets are realized or liabilities are settled, based on the statutory tax rate or substantive tax rate at the reporting date.

The consolidated company will offset the deferred income tax assets and deferred income tax liabilities when the following conditions are met at the same time:

1. Has the legally enforceable right to offset current income tax assets and current income tax liabilities; and
2. Deferred income tax assets and deferred income tax liabilities are related to one of the following taxable entities levied by the same taxation authority;
   (1) the same taxable entity; or
   (2) Different taxable entities, but each entity intends to settle current income tax liabilities and assets on a net basis, or to realize assets and repayments simultaneously, in each future period in which significant amounts of deferred income tax assets are expected

to be recovered and deferred income tax liabilities are expected to be settled.

(XVII) Earnings per share

The consolidated company presents the basic and diluted earnings per share attributable to the Company's common stock shareholders. The basic earnings per share of the consolidated company is calculated by dividing the profit or loss attributable to the Company's common stock shareholders by the weighted average number of the outstanding common stock shares during the period. Diluted earnings per share is calculated by having the profit and loss attributable to the Company's common stock shareholders and the weighted average number of common stock shares outstanding adjusted for the effects of all potential diluted common stock shares, respectively.

(18) Segment Information

An operating segment is a component of the consolidated company that is engaged in business activities that may earn revenue and incur expenses (including revenue and expenses related to transactions between other components of the consolidated company). The operating results of all operating segments are regularly reviewed by the chief operating decision maker of the consolidated company to make decisions on the allocation of resources to each segment and to evaluate its performance. Each operating segment has its own financial information.

V. Major sources of uncertainty in major accounting judgments, estimates, and assumptions

In preparing the consolidated financial statements, the management must make judgments, estimates and assumptions that will affect the adopted accounting policies and the assets, liabilities, revenues and expense amounts. Actual results may differ from estimates.

The management continues to review the estimates and underlying assumptions, and changes in accounting estimates are recognized in the period in which they are affected and in the future.

The accounting policies do not involve significant judgments and do not have significant impact on the amounts recognized in the consolidated financial statements. The uncertainty of assumptions and estimates does not have significant risks that will cause material adjustments in the following year.

VI. Description of significant accounting items

(I) Cash and cash equivalents

		2023.12.31	2022.12.31
Cash	$	350	331
Bank deposits		403,995	362,073
Total	$	404,345	362,404

Please refer to Note 6(18) for the disclosure of the interest rate risk and sensitivity analysis of the consolidated company's financial assets and liabilities.

(II) Financial assets and liabilities at fair value through profit or loss

		2023.12.31	2022.12.31
Financial assets mandatorily measured at fair value through profit or loss:			
Non-derivative financial asset structured deposits	$	9,305	9,698
Non-hedging derivative foreign exchange swap contracts		392	11,655
Total	$	9,697	21,353

	2023.12.31		
Item	Book value	Nominal Capital (NTD thousand)	Maturity Date
Derivative financial assets:			
Foreign exchange contract (USD/TWD)	$ 392	USD 1,800	2024.03.28 - 2024.06.28

	2022.12.31		
Item	Book value	Nominal Capital (NTD thousand)	Maturity Date
Derivative financial assets:			
Foreign exchange contract (USD/TWD)	$ 11,655	USD 4,200	2023.01.03 - 2023.06.06

The consolidated company's 2023 and 2022 net gains on financial assets at fair value through profit or loss were NT$711 thousand and NT$40,027 thousand, respectively; the net gains from financial liabilities at fair value through profit or loss were NT$162 thousand and NT$11 thousand, which were recorded under "Other gains and losses."

(III) Notes receivable and accounts receivable

		2023.12.31	2022.12.31
Notes receivable - from operation	$	3,597	3,339
Accounts receivable - measured at amortized cost		297,908	285,009
Less: Loss allowance		(4,888)	(8,452)
	$	296,617	279,896

The consolidated company uses simplified method to estimate expected credit losses for all notes and accounts receivable, that is, using expected credit losses throughout the duration. For this measurement, such notes and accounts receivable are grouped according to the common credit risk characteristics of the customers' ability to pay all amounts due in the contract terms which have been included in the forward-looking information, along with the macro economy and relevant industry information. Expected credit losses of notes and accounts receivable of the consolidated company are analyzed as follows:

	2023.12.31			
		Book value of notes and accounts receivable	Weighted average rate of expected credit losses	Allowance for expected credit losses during the duration
Not past due	$	288,867	0.18%	516
Overdue for less than 30 days		6,592	1.94%	128
Overdue for 31 - 60 days		691	24.89%	172
Overdue for 61 - 180 days		1,892	32.24%	610
Overdue for more than 181 days		3,463	99.97%	3,462
	$	301,505		4,888

	2022.12.31		
	Book value of notes and accounts receivable	**Weighted average rate of expected credit losses**	**Allowance for expected credit losses during the duration**
Not past due	$ 251,950	0.17%	417
Overdue for less than 30 days	22,418	6.15%	1,378
Overdue for 31 - 60 days	11,317	38.55%	4,363
Overdue for 61 - 180 days	1,953	81.38%	1,589
Overdue for more than 181 days	710	99.30%	705
	$ 288,348		8,452

The changes in the allowance for notes and accounts receivable of the consolidated company are as follows:

	2023	**2022**
Opening balance	$ 8,452	1,092
Recognized impairment loss	-	7,317
Reversal of impairment loss	(3,569)	-
Foreign exchange gain or loss	5	43
Closing balance	$ 4,888	8,452

(IV) Inventory

	2023.12.31	**2022.12.31**
Raw materials	$ 85,911	129,073
Materials	6,965	4,993
Work in process	42,537	31,983
Finished goods	124,906	121,178
Commodities	1,202	1,050
Total	$ 261,521	288,277

The cost of inventories recognized as cost of goods sold and expenses in 2023 and 2022 are NT$1,096,952 thousand and NT$1,624,633 thousand, respectively.

As the previous factor of the net realizable value lower than the cost has disappeared leading to the increase in net realizable value, in 2023, it has been recognized as a decrease of NT$11,528 thousand in the cost of sales.

In 2022, the net realizable value due to the write-down of inventories was recognized as an inventory valuation loss of NT$11,847 thousand, and was listed as cost of sales.

As of December 31, 2023 and 2022, the consolidated company's inventories had not been provided as collateral.

(V) Property, plant and equipment

The details of changes in cost and depreciation of the consolidated company's property, plant and equipment as of December 31, 2023 and 2022 are as follows:

	Land	Buildings	Machinery and equipment	Other equipment	Unfinished construction and equipment to be inspected	Total
Cost or recognized cost:						
Balance at the beginning of January 1, 2023	$ 1,183,627	1,148,200	433,229	222,230	74,321	3,061,607
Addition	-	-	829	14,090	13,934	28,853

Effect of exchange rate changes	-	-	-	(20)	-	(20)
Balance on December 31, 2023	$ -	193,231	271,953	173,932	-	639,116

Balance at the beginning of January 1, 2022	$	-	124,736	225,386	119,755	-	469,877
Depreciation		-	34,626	45,257	25,620	-	105,503
Disposal		-	-	(1,165)	(4,526)	-	(5,691)
Effect of exchange rate changes		-	-	-	33	-	33
Balance on December 31, 2022	$	-	159,362	269,478	140,882	-	569,722
Book value							
December 31, 2023	$	1,183,627	954,969	147,321	88,126	55,769	2,429,812
January 1, 2022	$	1,183,627	1,023,464	190,620	96,064	36,217	2,529,992
December 31, 2022	$	1,183,627	988,838	163,751	81,348	74,321	2,491,885

Please refer to Note VIII for details on bank loans and financing facilities as of December 31, 2023 and 2022.

On November 6, 2023, the consolidated company's board of directors resolved to sell the land at Lot No. 2-7, Nanyuan Road, Zhongli Industrial Park, with an area of 9,160 square meters (Lot No. 1771, 1788, Zhonggong Section, Zhongli District, Taoyuan City) by public auction, but was recognized as idle land by the Ministry of Economic Affairs on January 19, 2024. Therefore, the consolidated company’s board of directors passed a resolution on January 22, 2024 to change it to public auction or by way of price negotiation, and cancel the public auction on January 24, 2024, and hold the price negotiation with potential buyers instead. As of the release date of the consolidated financial report, the matter is in progress.

(VI) Right-of-use assets

The changes in cost and depreciation of the right-of-use assets recognized by the consolidated company's buildings, machinery and equipment, and transportation equipment are as follows:

		Buildings	Machinery and equipment	Transportation equipment	Total
Cost of right-of-use assets:					
Balance on January 1, 2023	$	80,485	293	4,457	85,235
Addition		51,876	666	1,493	54,035
Reduction		(80,485)	(293)	(1,359)	(82,137)
Effect of exchange rate changes		(50)	-	(8)	(58)
Balance on December 31, 2023	**$**	**51,826**	**666**	**4,583**	**57,075**
Balance on January 1, 2022	$	73,291	293	3,681	77,265
Addition		7,194	-	776	7,970
Balance on December 31, 2022	**$**	**80,485**	**293**	**4,457**	**85,235**
Depreciation of right-of-use assets:					
Balance on January 1, 2023	$	66,087	171	2,920	69,178
Current depreciation		20,947	115	1,341	22,403
Reduction		(80,485)	(244)	(1,359)	(82,088)
Effect of exchange rate changes		(9)	-	(3)	(12)
Balance on December 31, 2023	**$**	**6,540**	**42**	**2,899**	**9,481**
Balance on January 1, 2022	$	43,596	74	1,952	45,622

(VII) Short-term borrowings

The details of the consolidated company's short-term borrowings are as follows:

		2023.12.31	2022.12.31
Unsecured bank borrowings	$	128,690	253,230
Secured bank loan		290,000	-
Total	$	418,690	253,230
Unused credit limit	$	581,310	446,770
Interest rate range		1.75%~1.88%	1.5%~1.76%

Please refer to Note 8 for the consolidated company's assets pledged as collateral for bank loans.

(VIII) Long-term borrowings

The details, conditions and terms of the consolidated company's long-term loan are as follows:

	2023.12.31			
	Type of currency	Interest rate range	Year to maturity	Amount
Unsecured bank borrowings	NTD	1.50%~1.70%	2024~2027	$ 323,035
Secured bank loan	NTD	1.40%~2.01%	2028~2032	514,793
Subtotal				837,828
Less: Due within one year				(142,109)
Total				$ 695,719
Unused credit limit				$ 164,879

	2022.12.31			
	Type of currency	Interest rate range	Year to maturity	Amount
Unsecured bank borrowings	NTD	1.35%~1.58%	2024~2027	$ 378,299
Secured bank loan	NTD	1.28%~1.89%	2028~2032	953,196
Subtotal				1,331,495
Less: Due within one year				(165,831)
Total				$ 1,165,664
Unused credit limit				$ 1,251,129

Please refer to Note 8 for the consolidated company's assets pledged as collateral for bank loans.

(IX) Lease liabilities

The book value of lease liabilities of the consolidated company is as follows:

	2023.12.31	2022.12.31
Current	$ 11,221	16,080
Non-current	$ 38,159	536

Please refer to Note 6(18) Financial instruments for maturity analysis.

The amount of lease recognized in profit or loss is as follows:

	2023	2022
Interest expense of lease liabilities	$ 727	302
Expenses of short-term leases	$ 2,687	1,595
Expenses of low-value lease assets	$ 1,071	1,053

The amount of lease recognized in the statement of cash flows is as follows:

	2023	2022
Total cash outflow for leases	$ 25,659	26,751

1. Lease of land and buildings

The consolidated company leased land and buildings as office space. The lease period for office space is usually one to five years. Part of the lease includes an option for lease extension for the same period as the original contract at the end of the lease period.

2. Other leases

The consolidated company leases machinery and transportation equipment for a lease period of three to five years. In some lease contracts, the consolidated company has an option to purchase the leased assets at the end of the lease term, while in others, the consolidated company guarantees the residual value of leased assets at the end of the lease period.

(X) Employee benefits

1. Defined benefit plan

The adjustment of the present value of the consolidated company's defined benefit obligation and the fair value of the plan assets is as follows:

	2023.12.31	2022.12.31
Present value of defined benefit obligation	$ 30,550	30,509
Fair value of plan assets	(54,677)	(56,636)
Net defined benefit assets	$ (24,127)	(26,127)

The employee benefit liabilities of the consolidated company are as follows:

	2023.12.31	2022.12.31
Short-term paid absences liability (under other payables)	$ 5,010	4,042

The consolidated company's defined benefit plan is appropriated to the labor pension reserve account at the Bank of Taiwan. The retirement payment of each employee under the Labor Standards Act is calculated based on the bases earned for the years of service and the average salary six months prior to retirement.

(1) Composition of plan assets

The pension fund appropriated by the consolidated company in accordance with the Labor Standards Act is managed by the Bureau of Labor Funds, Ministry of Labor (hereinafter referred to as the "Bureau of Labor Funds"). The minimum income to be distributed in each year’s settlement shall not be lower than the income calculated based on the two-year time deposit interest rate of the local bank.

The consolidated company's labor pension fund account at the Bank of Taiwan is with a balance of NT$54,677 thousand as of the reporting date. Information on the utilization of assets of the Labor Pension Fund, including fund yield rate and fund asset allocation, is disclosed on the website of the Bureau of Labor Funds, Ministry of Labor.

(2) Changes in the present value of defined benefit obligations

Changes in the present value of the consolidated company's defined benefit obligations as of 2023 and 2022 are as follows:

	2023	2022
Defined benefit obligation as of January 1	$ 30,509	33,706
Current service cost and interest	459	253
Remeasurement of net defined benefit liabilities (assets)	2,792	(2,387)
Benefits planned to be paid	(3,210)	(1,063)
Defined benefit obligation as of December 31	$ 30,550	30,509

(3) Changes in the fair value of plan assets

Changes in the fair value of the consolidated company's defined benefit plan assets in 2023 and 2022 are as follows:

	2023	2022
Fair value of the plan assets on January 1	$ 56,636	53,202
Interest income	708	266
Remeasurement of net defined benefit assets	486	4,231
Amount appropriated to the plan	58	-
Benefits paid by the plan	(3,210)	(1,063)
Fair value of the plan assets on December 31	**$ 54,678**	**56,636**

(4) Expenses recognized in profit or loss

The details of expenses listed by the consolidated company in 2023 and 2022 are as follows:

	2023	2022
Current service cost	$ 459	253
Net interest of net defined benefit assets	(708)	(266)
	$ (249)	**(13)**

	2023	2022
Administrative expenses	**$ (249)**	**(13)**

(5) Remeasurement of net defined benefit (liability) assets recognized in other comprehensive income

The remeasurement of net defined benefit (liabilities) assets recognized by the consolidated company in other comprehensive income as of December 31, 2023 and 2022 is as follows:

	2023	2022
Accumulated balance on January 1	$ 4,244	(2,374)
Recognized in current period	(2,306)	6,618
Accumulated balance on December 31	**$ 1,938**	**4,244**

(6) Actuarial assumptions

The significant actuarial assumptions used to determine the present value of the defined benefit obligation by the consolidated company at the end of the financial reporting date are as follows:

	2023.12.31	2022.12.31
Discount rate	1.25%	1.25%
Future salary increase	2.00%	2.00%

The consolidated company expects to pay NT$58 thousand to the defined benefit plan within one year after the 2023 reporting date.

The weighted average duration of the defined benefit plan is 9.9 years.

(7) Sensitivity analysis

The impact of changes in the main actuarial assumptions to be adopted on December 31, 2023 and 2022 and the impact on the present value of defined benefit obligations is as follows:

	Effect on defined benefit obligations	
	Increased amount	Decreased amount
December 31, 2023		
Discount rate (changed by 0.25%)	(476)	490
Future salary increase (1.00% change)	2,017	(1,827)
December 31, 2022		
Discount rate (changed by 0.25%)	(580)	599
Future salary increase (1.00% change)	2,473	(2,220)

The above sensitivity analysis analyzes the impact of changes in a single assumption with other assumptions remaining unchanged. In practice, many changes in assumptions may be linked. The sensitivity analysis is consistent with the method used to calculate the net pension liabilities on the balance sheet.

The methods and assumptions used in the preparation of the sensitivity analysis of the current period are the same as those used in the previous period.

2. Defined contribution plan

The consolidated company's defined contribution plan complies with the Labor Pension Act. An amount equivalent to 6% of the employee's monthly wage is appropriated to the individual labor pension account with the Bureau of Labor Insurance. Under this plan, after appropriating a fixed amount to the Bureau of Labor Insurance, the consolidated company has no legal or constructive obligation to make additional payments.

The consolidated company's pension expense under the defined contribution plan was NT$12,546 thousand and NT$14,582 thousand in 2023 and 2022, respectively; also, it had been appropriated to the Bureau of Labor Insurance.

(XI) Income tax

1. Income tax expenses (gains)

The consolidated company's income tax expenses (gains) for 2023 and 2022 are as follows:

		2023	2022
Current income tax (gain) expense			
Occurred in the current period	$	(1,276)	39,409
Deferred income tax expense (profit)			
Occurrence and reversal of temporary difference		(2,331)	2,331
Income tax expenses (gains)	$	(3,607)	41,740

The relationship between the consolidated company's income tax expenses and net income before tax for 2023 and 2022 is adjusted as follows:

		2023	2022
Net income before tax	$	4,721	172,397
Income tax calculated in accordance with the domestic tax rate in the place where the Company is located	$	944	34,479
Tax rate differences in foreign jurisdictions		2,225	-
Non-deductible expenses		12	-
Changes in unrecognized temporary differences		(2,384)	1,500
Previous period’s (over) underestimation		(6,466)	2,098
Levies on undistributed earnings		2,112	1,334
Others		(50)	2,329
Total	$	(3,607)	41,740

2. Deferred income tax assets and liabilities

(1) Unrecognized deferred income tax assets

The items that have not been recognized by the consolidated company as deferred income tax assets are as follows:

		2023.12.31	2022.12.31
Deductible temporary difference	$	2,620	4,621

(2) Recognized deferred income tax assets and liabilities

Changes in deferred income tax liabilities are as follows:

Deferred income tax liabilities:	**Fair value gain**
Balance on January 1, 2023	$ (2,331)
Debit (credit) income statement	2,331
Balance on December 31, 2023	$ -
Balance on January 1, 2022	$ -
Debit (credit) income statement	(2,331)
Balance on December 31, 2022	$ (2,331)

3. The income tax returns of the Company's profit-seeking business have been audited and approved by the tax authorities up to 2021.

(XII) Capital and other equity

The Company's authorized capital amounted to NT800,000 thousand with 80,000 thousand shares issued at NT$10 par value per share on December 31, 2023 and 2022, respectively. Total shares issued were 65,641 thousand and 58,490 thousand shares, respectively. All payments on the issued shares have been collected.

1. Issuance of common shares

To cooperate with the application for the public underwriting of initial public offering (IPO) of shares, the board of directors resolved to issue 7,320 thousand new shares for cash capital increase at NT$10 par value per share on December 28, 2022. The base date for the cash capital increase was May 16, 2023. The number of new shares issued for the cash capital increase included public subscription, employee subscription, and competitive auction, and the numbers were 1,317,000, 732,000, and 5,271,000 shares, respectively. Both public subscription and employee subscription were issued at a premium of NT$36 per share. Competitive auction is that the shares were issued at a premium which is the weighted average price of the winning bid at NT$64.9 per share for a total of 415,847,000 shares. The net amount of NT$339,647 derived from taking the difference between the issuance price and the face value of NT$342,647 thousand minus the issuance cost of NT$3,000 thousand and this amount was listed under the Capital Reserves - Issuance of Stocks Under the premium. All the payments for the shares issued have been collected, and the relevant statutory registration procedures have been completed.

On August 9, 2021, the Company's board of directors resolved to issue new shares for capital increase in cash, and 6,000 thousand common shares were issued at a premium of NT$36 per share for a total amount of NT$216,000 thousand. The base date of the cash capital increase was January 17, 2022. As of December 31, 2021, the

Company has collected shares of NT$45,389 thousand in advance, and received full payment on January 14, 2022. Completion of change registration took place on February 10, 2022.

The Company recovered and canceled the restricted stock awards for employees for a total of 4 thousand shares in September 2022 and the legal registration procedures for the above cancellation have been completed.

The Company recovered and cancelled the restricted stock awards for employees in June 2023 for a total of 167 thousand shares in a total amount of NT$1,672 thousand, and the legal registration procedure for the cancellation was completed.

The Company recovered and cancelled the restricted stock awards for employees in December 2023 for a total of two thousand shares in a total amount of NT$20 thousand, and the legal registration procedure for the cancellation was completed.

2. Capital surplus

The balance of the Company's capital reserves is as follows:

	2023.12.31	2022.12.31
Issued stock premium	$ 695,897	356,250
New restricted stock award shares issued to employees	5,918	10,128
Employee stock option	5,190	118
Expired stock options	(949)	(293)
	$ 706,056	366,203

The Company's capital increase in cash is reserved for employees to subscribe according to the laws. Please refer to Note 6(13) for details.

Pursuant to the Company Act, capital reserves shall be first used to make up for losses before issuing new shares or cash based on realized capital reserve according to the original shareholding ratio. The realized capital reserve mentioned in the preceding paragraph includes the premium of shares issued in excess of the par value and the income from gifts received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, the total amount of capital reserve for capitalization each year shall not exceed 10% of the paid-in capital.

3. Retained earnings

Pursuant to the Company's Articles of Incorporation, if the Company makes a profit in its financial report, it shall first pay tax and make up for past losses, and then appropriate 10% as legal reserve, and shall appropriate or reverse special reserve in accordance with the laws or regulations or the requirements of the competent authorities. If there is still any distributable earnings, the accumulated undistributed earnings of the previous years shall be added up, and the Board of Directors shall prepare a proposal for the distribution of shareholders' dividends and submit it to the shareholders' meeting for resolution.

The Company is currently in the growth stage. The needs for business expansion such as capital expenditures and working capital are taken into account, as well as the steady development of the Company's short, medium and long-term financial structure, while the focus is on the stability and growth of dividends. In accordance with the preceding Article, 20% or more of the distributable earnings as stated in the annual financial statements shall be set aside for dividend distribution. However, if the accumulated unappropriated earnings of prior years are less than 30% of the paid-in capital, the Company may propose not to distribute such earnings. When the Company distributes stock dividends and cash dividends at the same time, the cash dividends shall not be less than 20% of the total dividends to shareholders for the year.

(1) Legal reserve

When the Company has no losses, the shareholders' meeting may resolve to issue new shares or cash from the legal reserve, provided that such reserve exceeds 25% of the paid-in capital.

(2) Profit Distribution

The 2022 and 2021 earnings distribution proposals were resolved in the general shareholders' meetings on June 2, 2023 and June 2, 2022. The dividends distributed to the shareholders are as follows:

	2022		2021	
	Stock dividend rate (NTD)	**Amount**	**Stock dividend rate (NTD)**	**Amount**
Dividends distributed to common stock shareholders:				
Cash	$ 1.07	70,188	1.00	52,494

The amount of cash dividends for the 2023 earnings distribution proposal was proposed on March 15, 2024. The dividends distributed to the shareholders is as follows:

	2023	
	Stock dividend rate (NTD)	**Amount**
Dividends distributed to common stock shareholders:		
Cash	$ 0.50	32,984

(XIII) Share-based payment

1. On June 11, 2020, the Company's annual shareholders' meeting resolved to issue 500 thousand Restricted Stock Awards (RSA). The recipients of the new shares are limited to the Company's full-time employees who meet specific conditions. It has been declared with the Securities and Futures Bureau of the Financial Supervisory Commission and went into effect. It was fully issued on March 9, 2020 as resolved by the board of directors. The capital increase base date was February 25, 2021. The fair value on the grant date was NT$19,378 thousand. The Scholes option evaluation model estimates the fair value of the share-based payment on the grant date.

   The parameters used in the evaluation model are as follows:

Reference market price	NT$38.67
Expected duration	3 years
Average fair value per share	NT$38.68 - NT$38.84
Expected volatility	39.6%
Risk-free interest rate	0.07~0.19%

   The expected volatility is based on the weighted average historical volatility and adjusted for expected changes due to publicly available information; the expected risk-free interest rate is based on government bonds.

   Employees who are allocated the above-mentioned restricted stock award and have continuously worked for the Company for one, two and three years from the date of subscription receive 30%, 30% and 40% of the shares allocated to them, respectively. After the employee subscribes for the new shares, but before the vesting conditions are met, they must be transferred to an institution designated by the Company for custody and may not be sold, pledged, transferred, gifted or otherwise disposed of; during the period of the consignment to the trust, the voting rights of the shareholders' meeting shall be kept by the trust Institutions who shall implement these in accordance with the relevant laws and regulations. If an employee is not eligible for the vested conditions after the new shares are subscribed, the shares shall be repurchased by the Company at the issue price in full and written off.

Relevant information of the consolidated company's Restricted Stock Awards (RSA):

Unit: Thousand shares

	2023	2022
Outstanding quantity as of January 1	342	494
Quantity given in current period	-	-
Quantity vested in this period	-	(148)
Quantity lost in the current period	(169)	(4)
Outstanding quantity as of December 31	**173**	**342**

2. The consolidated company's board of directors resolved the capital increase by cash on December 28, 2022, of which 732 thousand shares were reserved for employees to subscribe. The relevant information is as follows:

	Capital increase in cash reserved for employee subscription
Grant date	May 16, 2023
Quantity given	732 thousand shares
Number of expired shares	(329) thousand shares
Grantees	All employees
Vesting conditions	Immediately vested

The consolidated company uses the option evaluation model to estimate the fair value of the share-based payment on the grant date.

The fair value of each share option is NT$12.60. In 2023, a remuneration cost of NT$5,072 thousand was recognized and listed as operating expenses. Please refer to Note 6(12) for the recognition of capital reserve.

3. Employee expenses

The consolidated company's employee expenses arising from the share-based payment are as follows:

	2023	2022
Restricted Stock Awards (RSA)	$ 564	5,807
Employee stock option	5,072	-
	$ 5,636	**5,807**

(XIV) Earnings per share

The consolidated company's basic earnings per share and diluted earnings per share are calculated as follows:

	2023	2022
Basic earnings per share		
Net profit attributable to the Company's common stock shareholders	$ 8,328	130,657
Weighted average number of outstanding common stock	62,723	57,861
Basic earnings per share (NT$)	**$ 0.13**	**2.26**
Diluted earnings per share		
Current net income attributable to the Company	$ 8,328	130,657
Effect of potentially dilutive ordinary shares	-	-
Net income attributable to the Company's common stock shareholders (adjusted for the potential dilutive effect of common stock shares)	$ 8,328	130,657
Weighted average number of outstanding common stock (shares in thousands)	62,723	57,861
Restricted Stock Awards (RSA) (thousand shares)	258	213
Effect of employee stock compensation (thousand shares)	30	125
Weighted average number of outstanding common shares (after adjustment for potential dilutive effect of common shares) (thousand shares)	63,011	58,199
Diluted earnings per share (NT$)	**$ 0.13**	**2.25**

(XV) Revenue from customer contracts

1. Breakdown of Revenue

		2023	2022
Key regional markets:			
Americas	$	603,712	945,799
Asia		528,952	816,872
Europe		130,335	140,685
Africa		15,873	26,388
Others		45,404	68,979
	$	1,324,276	1,998,723
Main product/service lines:			
Steel ball bearing slides	$	1,289,201	1,946,827
Others		35,075	51,896
	$	1,324,276	1,998,723

2. Contract balance

		2023.12.31	2022.12.31	2022.1.1
Notes receivable	$	3,597	3,339	5,624
Accounts receivable		297,908	285,009	425,037
Less: Loss allowance		(4,888)	(8,452)	(1,092)
Total	$	296,617	279,896	429,569

Please refer to Note 6(3) for the disclosure of accounts receivable and its impairment.

(XVI) Remuneration to employees and directors

Pursuant to the Company's Articles of Incorporation, if there is profit in the year, no less than 3% of the profit shall be appropriated as remuneration to employees and no more than 3% as remuneration to directors. However, if the Company still has accumulated losses, the amount shall be reserved in advance to offset the losses. The employees' remuneration referred to in the preceding paragraph may be paid in the form of shares or cash, and the Board of Directors is authorized to make a resolution on this matter.

The Company's 2023 and 2022 employees' remuneration is estimated to be NT$105 thousand and NT$9,369 thousand, and directors' remuneration is NT$63 thousand and NT$5,622 thousand, respectively. These are derived by taking the amount of the net income before tax before deducting the remuneration of employees and directors for the period, and multiplied by the share allocation of the remuneration of employees and directors as stipulated in the Articles of Incorporation of the Company as the basis for calculation, which is listed as operating costs or operating expenses for 2023 and 2022. Relevant information is available on the Market Observation Post System (MOPS).

The amount of remuneration distributed to employees and directors as resolved by the above-mentioned board meeting is no different from the estimated amount in the Company's 2023 and 2022 consolidated financial statements.

(XVII) Non-operating income and expenses

1. Interest income

The interest income of the consolidated company is detailed as follows:

	2023	2022
Interest on bank deposits	$ 7,903	2,168

2. Other income

The consolidated company's other income is detailed as follows:

	2023	2022
Rental income	$ 3,536	4,027
Others	12,640	7,628
Total other income	$ 16,176	11,655

3. Other gains and losses

The consolidated company's other gains and losses are detailed as follows:

	2023	2022
Gains from the disposal of property, plant and equipment	$ 149	219
Gain (loss) on foreign currency exchange	(4,805)	56,105
Net gain on financial assets at fair value through profit or loss	711	40,027
Net gain of financial liabilities at fair value through profit or loss	162	11
Other gains and losses	(657)	1,590
Other gains and losses, net	$ (4,440)	97,952

4. Financial cost

The consolidated company's financial costs are detailed as follows:

	2023	2022
Interest on bank borrowings	$ (23,659)	(23,923)
Interest on lease liabilities	(727)	(302)
Others	(24)	-
Net finance cost	$ (24,410)	(24,225)

(XVIII) Financial instruments

1. Credit risk

(1) Credit risk exposure amount

The book value of financial assets and contract assets represent the maximum credit risk exposure amount.

(2) Concentration of credit risk

As the consolidated company has a broad customer base and does not conduct transactions with a single customer significantly and has dispersed sales regions, the credit risk of accounts receivable does not have significant concentration. For the objective of lowering credit risk, the consolidated company regularly assesses the financial position of its customers. However, customers are not required to provide collateral.

2. Liquidity risk

The following table shows the contractual maturity dates of financial liabilities, including the effect of estimated interest.

	Book value	Contractual cash flow	Within 6 months	6-12 months	1-2 years	2-5 years	Over 5 years
December 31, 2023							
Non-derivative financial liabilities							
Short-term borrowings	$ 418,690	423,378	131,635	291,743	-	-	-
Accounts payable	98,278	98,278	98,278	-	-	-	-
Accounts payable - related parties	62,985	62,985	62,985	-	-	-	-
Other payables	46,900	46,900	46,900	-	-	-	-
Lease liabilities	49,380	51,493	6,119	5,934	11,641	27,799	-
Long-term borrowings (including those due within one year)	837,828	891,241	80,458	75,929	197,785	447,456	89,613
	$ 1,514,061	1,574,275	426,375	373,606	209,426	475,255	89,613

December 31, 2022							
Non-derivative financial liabilities							
Short-term borrowings	$ 253,230	253,855	253,855	-	-	-	-
Notes payable	114	114	114	-	-	-	-
Accounts payable	110,785	110,785	110,785	-	-	-	-
Accounts payable - related parties	74,111	74,111	74,111	-	-	-	-
Other payables	58,213	58,213	58,213	-	-	-	-
Lease liabilities	16,616	16,708	11,092	5,077	473	66	-
Long-term borrowings (including those due within one year)	1,331,495	1,429,816	94,106	93,714	426,008	662,799	153,189
	$ 1,844,564	**1,943,602**	**602,276**	**98,791**	**426,481**	**662,865**	**153,189**

The consolidated company does not expect the cash flow analysis on the maturity date will be significantly early or the actual amount will be significantly different.

3. Exchange rate risk

(1) Exchange rate risk exposure

The financial assets and liabilities of the consolidated company exposed to significant foreign exchange rate risk are as follows:

Amount: NTD Thousand

	2023.12.31			2022.12.31		
	Foreign currency	**Exchange rate (NTD)**	**NTD**	**Foreign currency**	**Exchange rate (NTD)**	**NTD**
Financial assets						
Monetary assets						
USD	$ 15,612	30.705	479,366	14,291	30.71	438,877
Financial liabilities						
Monetary liabilities						
USD	957	30.705	29,385	1,110	30.71	34,088

The exchange rate risk of the consolidated company's monetary accounts mainly comes from the foreign currency exchange gains and losses arise during the translation of the cash and cash equivalents, accounts receivable and accounts payable - related parties, denominated in foreign currencies. In 2023 and 2022, when the value of NTD depreciated or appreciated by 1% against USD, and all other factors remained unchanged, the 2023 and 2022 net income before tax would increase or decrease by NT$4,500 thousand and NT$4,048 thousand, respectively. The analysis of two terms is based on the same basis.

The consolidated company discloses the exchange gain or loss of monetary items in a summarized manner. The foreign currency exchange gain or loss (including realized and unrealized) for 2023 and 2022 were NT$(4,805) thousand and NT$56,105 thousand, respectively.

(2) Interest rate risk

The interest rate exposure of the consolidated company's financial assets and financial liabilities is described in the liquidity risk management of this note.

The following sensitivity analysis is based on the interest rate risk exposure of the derivative and non-derivative instruments on the reporting date. The analysis of liabilities with floating interest rates is based on the assumption that the amount of liabilities outstanding on the reporting date has been outstanding throughout the year. The rate of change used in the consolidated company's internal reporting of interest rates to key management is an increase or decrease of 1%, which also represents management's assessment of the reasonably possible range of interest rates.

If the interest rate increases or decreases by 1%, and all other variables remain unchanged, the net income before tax of the consolidated company for 2023 and 2022 will decrease or increase by NT$12,257 thousand and NT$6,724 thousand, respectively. This is mainly due to the variable interest rate borrowings of the consolidated company.

4. Fair value information

(1) Type and fair value of financial instruments

Financial assets and liabilities measured at fair value through profit or loss are measured at fair value on a repetitive basis. The book value and fair value of various financial assets and financial liabilities (including fair value hierarchy information, but the book value of the financial instrument not measured at fair value is a reasonable approximation of the fair value and lease liabilities, and there is no need to disclose the fair value information according to the regulations) is shown as follows:

	2023.12.31				
		Fair value			
	Book value	**Level 1**	**Level 2**	**Level 3**	**Total**
Financial assets at fair value through profit or loss					
Non-derivative financial assets	$ 9,305	-	9,305	-	9,305
Derivative financial assets	392	-	392	-	392
Subtotal	$ 9,697	-	9,697	-	9,697

	2022.12.31				
		Fair value			
	Book value	Level 1	Level 2	Level 3	Total
Financial assets at fair value through profit or loss					
Non-derivative financial assets	$ 9,698	-	9,698	-	9,698
Derivative financial assets	11,655	-	11,655	-	11,655
Subtotal	$ 21,353	-	21,353	-	21,353

(2) Valuation technique for the fair value of financial instruments measured at fair value

(2.1) Non-derivative financial instruments

If there is a quoted market price for the financial instrument, the quoted price on the active market is used as the fair value. The market prices announced by major exchanges and by TPEx for central government bonds that are determined to be popular are the basis for the fair value of TWSE/TPEx-listed equity instruments and debt instruments with open quotations on the active market.

If open quotations of financial instruments can be obtained in a timely manner from exchanges, brokers, underwriters, industrial associations, pricing service institutions or competent authorities, and the prices represent actual and frequently occurring fair market transactions, then the financial instruments have open quotations in the active market. If the above conditions are not met, the market is deemed inactive. Generally speaking, a large spread of the bid-ask spread, a significant increase in the spread of the bid-ask price, or a low trading volume are indicators of an inactive market.

Except for the above-mentioned financial instruments with active markets, the fair value of the remaining financial instruments is obtained through evaluation technology or by referring to the quotations of the counterparties. The fair value obtained through the evaluation technology can be based on the current fair value of other financial instruments with similar conditions and characteristics, the discounted cash flow method or other evaluation technology, including the value obtained by applying the model to the market information available on the consolidated reporting date.

(2.2) Derivative financial instruments

The valuation is based on the valuation models widely accepted by the market users, such as the discount method and the option pricing model. Forward exchange contracts are usually evaluated based on the current forward exchange rate.

(XIX) Financial risk management

1. Summary

The consolidated company is exposed to the following risks due to the use of financial instruments:

(1) Credit risk

(2) Liquidity risk

(3) Market risk

The consolidated company's risk exposure information and the objectives, policies and procedures of the consolidated company's risk measurement and management are disclosed in the notes. Please refer to the notes to the consolidated financial statements for further quantitative disclosure.

2. Risk management framework

The Board of Directors is solely responsible for establishing and supervising the risk management framework of the consolidated company. The Board of Directors has established a Risk Management Committee to be responsible for developing and controlling the risk management policies of the consolidated company, and to report its operations to the Board of Directors on a regular basis.

The consolidated company's risk management policies are established to identify and analyze the risks faced by the consolidated company, to set appropriate risk limits and controls, and to monitor risks and the compliance of risk limits. Risk management policies and systems are regularly reviewed to reflect changes in market conditions and the operation of the consolidated company. The consolidated company develops a disciplined and constructive controlled environment through training, management guidelines, and operating procedures so that all employees understand their roles and obligations.

Monitor the compliance of the consolidated company's risk management policies and procedures, and review the adequacy of the consolidated company's relevant risk management framework for the risks faced. The internal auditors assist the consolidated company's Audit Committee to play a supervisory role. These personnel conduct regular and ad hoc reviews of risk management controls and procedures, and report the results of the review to the Audit Committee.

3. Credit risk

Credit risk is the risk of financial loss resulting from the failure of the consolidated company's customers or financial instrument trading counterparts to perform contractual obligations, which mainly comes from the consolidated company's accounts receivable from customers and securities investment.

(1) Accounts receivable and other receivables

The consolidated company has established a credit policy. According to the policy, before granting standard payment and shipping terms and conditions, the consolidated company shall analyze the credit rating of each new customer and establish an individual credit limit to control the credit risk.

(2) Investment

The credit risk of bank deposits and other financial instruments is measured and monitored by the consolidated company's finance department. Since the counterparties of the consolidated company are banks with good credit ratings and there is no significant performance doubts, there is no significant credit risk.

4. Liquidity risk

Liquidity risk is the risk that the consolidated company cannot deliver cash or other financial assets to settle financial liabilities and fail to fulfill related obligations. The consolidated company manages liquidity by ensuring that, as far as possible, under normal and stressed circumstances, the consolidated company has sufficient working capital to cover liabilities as they fall due, without causing unacceptable losses or risk of damage to the consolidated company's reputation.

The consolidated company manages and maintains sufficient cash and cash equivalents to fund its operations and mitigate the impact of cash flow fluctuations. The consolidated company's management supervises the use of the bank's financing facilities and ensures compliance with the terms of the loan contract.

Bank borrowings are an important source of liquidity to the consolidated company. As of December 31, 2023 and 2022, the consolidated company's unused short-term bank facilities amounted to NT$581,310 thousand and NT$446,770 thousand, respectively.

5. Market risk

Market risk refers to the risk that changes in market prices, such as exchange rates, interest rates, and equity instrument price changes, which will affect the consolidated company's income or the value of financial instruments. The objective of market risk management is to control market risk exposure within the tolerable range and to optimize investment returns.

(1) Exchange rate risk

The consolidated company is exposed to the exchange rate risk generated by the sales transactions denominated in non-functional currency. The functional currency of the consolidated company is mainly NTD, and also includes CNY and USD. These transactions are mainly denominated in the currencies of NTD, CNY, and USD.

The consolidated company uses USD forward contracts to balance accounts receivable denominated in USD to reduce the risk of valuation loss of USD accounts receivable due to exchange rate fluctuations.

(XX) Capital management

The objectives of the consolidated company's capital management are to ensure the ability to continue as a going concern, to continuously provide shareholder returns and other benefits for stakeholders, and to maintain the optimal capital structure to reduce the cost of capital.

To maintain or adjust the capital structure, the consolidated company may adjust the dividend payment to shareholders, return capital to shareholders, issue new shares, or sell assets to pay off liabilities.

The consolidated company manages capital based on the debt capital ratio. The said ratio is net debt divided by total capital. Net liabilities are the total liabilities shown in the balance sheet less cash and cash equivalents. Total capital is all of the equity (i.e. share capital, capital reserve, retained earnings and other equity) plus net liabilities.

The debt capital ratios as of December 31, 2023 and 2022 are as follows:

	2023.12.31	2022.12.31
Total liabilities	$ 1,573,487	1,942,078
Less: Cash and cash equivalents	(404,345)	(362,404)
Net liabilities	**$ 1,169,142**	**1,579,674**
Total equity	$ 1,925,447	1,571,275
Total capital	**$ 3,094,589**	**3,150,949**
Debt capital ratio	**37.78%**	**50.13%**

(XXI) Investment and financing activities of non-cash transactions

The non-cash transaction investment and fund-raising activities of the consolidated company in 2023 and 2022 are as follows:

1. For the right-of-use assets acquired by lease, please refer to Note 6(6).

2. The adjustment of liabilities from financing activities is as follows:

	2023.1.1	Cash flow	Non-cash changes Others	2023.12.31
Long-term borrowings	$ 1,331,495	(493,667)	-	837,828
Short-term borrowings	253,230	165,460	-	418,690
Lease liabilities	16,616	(21,174)	53,938	49,380
Total liabilities from financing activities	$ 1,601,341	(349,381)	53,938	1,305,898

	2022.1.1	Cash flow	Non-cash changes Others	2022.12.31
Long-term borrowings	$ 1,539,164	(207,669)	-	1,331,495
Short-term borrowings	328,493	(75,263)	-	253,230
Short-term notes payable	100,000	(100,000)	-	-
Lease liabilities	32,447	(23,801)	7,970	16,616
Total liabilities from financing activities	$ 2,000,104	(406,733)	7,970	1,601,341

VII. Related party transactions

(I) Name of related party and relationship

The related parties who have transactions with the consolidated company during the period of the consolidated financial statements are as follows:

Name of related party	Relationship with the consolidated company
Chin-Lan Lee	Chairman of the Company
Hsin-Cheng Wu	Director of the Company
Jen-Shan Wu	President of the Company
Suzhou Repon Industrial Co., Ltd. (hereinafter referred to as "Suzhou Repon")	Its chairman is the same as the chairman of the Company
SHERN DAR INDUSTRIAL CORP. (hereinafter referred to as Shern Dar Industrial)	Its Chairman is a second-degree relative of the Chairman of the Company
UNITED FORTUNE INVESTMENT LIMITED COMPANY	Its Chairman is the same as the President of the Company

(II) Significant transactions with related parties

1. Purchase of goods

The consolidated company's purchase amount to the related party is as follows:

	2023	2022
Other related party- Suzhou Repon	$ 159,268	206,680
Other related party	42,039	46,863
	$ 201,307	253,543

The consolidated company does not purchase the same type of products from other suppliers, so the purchase price from the related party is not comparable to that of general suppliers, and the payment term is 60 to 90 days, which is not significantly different from that of general suppliers.

2. Leases

The rent expenses paid by the consolidated company to the key management personnel of the parent company for renting the Yunlin Beigang Plant in 2023 and 2022 were both NT$240 thousand. Up to December 31, 2023 and 2022, the proceeds from the above transactions have been paid.

The consolidated company leased buildings and land from other related parties in January 2021, and with reference to the rent and land prices in the neighborhood, a three-year lease contract was signed with a total contract value of NT$25,740 thousand and a deposit of NT$2,040 thousand was paid and was accounted for under "other non-current assets." The rent paid in 2023 and 2022 are NT$9,000 thousand and NT$8,580 thousand respectively; as of December 31, 2023 and 2022, the balance of lease liability is NT$0 thousand and NT$8,943 thousand.

3. Endorsements and guarantees

The consolidated company's borrowings from financial institutions in 2023 and 2022 were jointly guaranteed by the key management personnel of the parent company in accordance with the requirements of some borrowing agreements.

4. Receivables from related parties

Presentation item	Category of related party	2023.12.31	2022.12.31
Other receivables	Other related party	$ -	441

5. Payables to related parties

Presentation item	Category of related party	2023.12.31	2022.12.31
Accounts payable	Other related party - Suzhou Repon	$ 47,904	67,030
Accounts payable	Other related party	15,081	7,081
		$ 62,985	74,111

6. Property transactions

The consolidated company had purchased machinery, equipment and molds from other related parties for a total price of NT$3,604 thousand in 2022. The purchase amount had been paid as of December 31, 2022. Please refer to Note 6(5) for details.

(III) Key management personnel transactions

Remuneration to key management personnel includes:

		2023	2022
Short-term employee benefits	$	18,203	18,696
Post-employment benefits		436	480
	$	18,639	19,176

VIII. Pledged assets

The book value of the consolidated company's pledged assets is as follows:

Mortgage and pledge of assets	Subject matter of guarantee		2023.12.31	2022.12.31
Other current assets	Option margin	$	3,399	3,247
Other current assets	Letter of guarantee for technical cooperation		180	180
Land, buildings and structures	Guarantee for bank loans		2,125,233	2,159,102
		$	2,128,812	2,162,529

IX. Significant contingent liabilities and unrecognized contractual commitments

(I) Significant unrecognized contractual commitments:

As of December 31, 2023 and 2022, the unrecognized contractual commitments of the consolidated company for the acquisition of property, plant and equipment before tax amounted to NT$558,920 thousand and NT$559,460 thousand, respectively.
